ROGUE DT

YOUR LIFE. YOUR PACE.

YOUR STYLE.

The lightest, strongest frame in its class, fully customizable to you, with the versatility to adapt to any lifestyle and elevate every experience.

"I love that the Rogue DT doesn't hold me back. It lets me stay active, move easily, and do so much more of what I love every day. Having a chair that finally keeps up with my life gives me the confidence to go out and live."

-Bailey Hunter

Ms. Wheelchair Arkansas 2026

SCHWALBE

PERFORMANCE YOU CAN FEEL

ULTRA-LIGHT

Designed for effortless everyday use, the compact, ultra-light frame (10.6/9.3 lbs) reduces effort needed for lifting while maintaining a size and feel that makes loading into your vehicle as easy as a mono tube. Streamlined towers and an optimized wing position enhance navigation in tight spaces and simplifies transfers, supporting greater independence and confidence.

ULTRA-RIGID

Engineered to keep pace with your day, **Rogue DT** delivers consistent, predictable performance in any environment. From daily routines to new experiences, the exceptional frame rigidity enhances ride quality while providing a responsive feel that supports an active, confident lifestyle.

1 | BACKREST STYLES

Backrest options that meet your needs. The folding back creates a compact profile for transport and allows quick angle adjustments using one tool with no disassembly. The non-folding back delivers a fixed, welded angle that reduces weight by 1.3 lbs. while increasing rigidity.

DESIGNED AROUND YOU

Designed for every stage of your journey, whether you prioritize adjustability or a simplified, streamlined ride. **Rogue DT** has options that provide new riders and seasoned pros the freedom to configure a chair that fits their body and lifestyle.

2 | ERGONOMIC SEAT

Fully customizable to support proper positioning and functional movement. Improved wheel access and enhanced stability increases overall comfort, while supporting more efficient propulsion throughout your daily activities.

3 | HUB LOCK

Locking your wheels is simple and reliable with Hub Lock technology. Designed to work independent of tire pressure, while delivering consistent single-action engagement with minimal maintenance, all at an industry-leading price point.

"Performance, reliability, and mobility aren't luxuries, they're requirements. Rogue DT delivers all three with a rigid, compact design that keeps up with my lifestyle as a veteran, adaptive athlete, and professional racer. Wherever the mission takes me, I know my equipment is ready."

-Anthony Radetic

WO1, U.S. Army (Ret.)
Professional Sea-Doo Racer
UIM Equality Ambassador

YOUR KIND OF...
ONE OF A KIND.

Express your personality with a wide range of vibrant frame and accent color options. Use the interactive **Color Visualizer** to explore combinations and bring your vision to life before your chair is built.

POWER YOUR LIFESTYLE

The enhanced strength of the **Rogue DT** frame boosts durability and rigidity, maximizing the performance of your chair when paired with your power add-on system.

CONFIDENCE DELIVERED

Ensure your chair fits, performs, and looks exactly as intended before it's built with visual models of your chair's configuration. **Rogue DT** delivers the fast, reliable lead times you expect from Ki Mobility.
